

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-14 canceled.

Claim 15 (previously presented): A method for receiving location information, the method comprising:

receiving a message at a first terminal device indicating that a user of a second terminal device has pressed a talk button, the message including a geographical location of the second terminal device; and

indicating the geographical location of the second terminal device to a user of the first terminal device.

Claim 16 (currently amended): A method for receiving location information as claimed in claim 15, ~~wherein the step of indicating further comprises~~ further comprising at least one of:

indicating a direction of the first terminal device from the geographical location of the second terminal device;

indicating a distance of the first terminal device from the second terminal device;

indicating a geographical location of the first terminal device on a map together with the geographical location of the second terminal device; and

indicating coordinates of both the first terminal device and the second terminal device.

Claim 17 (previously presented): A method for receiving location information as claimed in claim 15, wherein the message is a Push-to-Talk over Cellular message.

Claim 18 (currently amended): A method for receiving location information as claimed in claim 17, wherein the Push-to-Talk over Cellular message is one of a REFER message, and a Floor taken message ~~and a Talk burst~~.

Claim 19 (currently amended): A method for transmitting location information, the method comprising:

writing information into a message, in response to a user of a first terminal device pressing a talk button, the information indicating the user pressed the talk button and describing a geographical location of the first terminal device; and

transmitting the message to one of a second terminal device and a communications network.

Claim 20 (previously presented): A method for transmitting location information as claimed in claim 19, wherein the information describing the geographical location of the first terminal device is written into the message only if a parameter controllable by the user of the first terminal device shows that the geographical location may be indicated.

Claim 21 (previously presented): A method for transmitting location information as claimed in claim 19, wherein the information describing the geographical location of the first terminal device is written into the message only if a parameter controllable by the user of the first terminal device shows that the geographical location may be indicated to another terminal device to which the message is to be sent.

Claim 22 (previously presented): A method for transmitting location information as claimed in claim 19, wherein the message is a Push-to-Talk over Cellular message.

Claim 23 (currently amended): A method for transmitting location information as claimed in claim 22, wherein the Push-to-Talk over Cellular message is one of a REFER message, and a Floor taken message ~~and a Talk burst~~.

Claim 24 (currently amended): A terminal device, comprising:

~~parts-for-a~~ receiver, the receiver receiving a message indicating that a user of a further terminal device has pressed a talk button, the message including a geographical location of the further terminal device; and

~~parts-for-an~~ indicator, the indicator indicating the geographical location of the further terminal device to a user of the terminal device.

Claim 25 (currently amended): A terminal device as claimed in claim 24, wherein the ~~parts-for-indicating-the-geographical-location-of-the-further-terminal-device-are~~ indicator is designed to at least one of:

indicate a direction of the terminal device from the geographical location of the further terminal device;

indicate a distance of the terminal device from the further terminal device;

indicate a geographical location of the terminal device on a map together with a geographical location of the further terminal device; and

indicate coordinates of both the terminal device and the further terminal device.

Claim 26 (previously presented): A terminal device as claimed in claim 24, wherein the message is a Push-to-Talk over Cellular message.

Claim 27 (currently amended): A terminal device as claimed in claim 26, wherein the Push-to-Talk over Cellular message is ~~one-of-a-REFER-message, a Floor taken message-and-a Talk-burst.~~

Claim 28 (currently amended): A terminal device, comprising:

~~parts-for-a~~ message generator, the message generator writing information into a message, responsive to a user of the terminal device pressing a talk button, the information indicating the user pressed the talk button and describing a geographical location of the terminal device; and

~~parts-for-a~~ transmitter, the transmitter transmitting the message to one of a further terminal device and a communications network.

Claim 29 (previously presented): A terminal device as claimed in claim 28, wherein the information describing the geographical location of the terminal device is written into the message only if a parameter controllable by the user of the terminal device shows that the geographical location may be indicated.

Claim 30 (previously presented): A terminal device as claimed in claim 28, wherein the information describing the geographical location of the terminal device is written into the message only if a parameter controllable by the user of the terminal device shows that the geographical location may be indicated to another terminal device to which the message is to be sent.

Claim 31 (previously presented): A terminal device as claimed in claim 28, wherein the message is a Push-to-Talk over Cellular message.

Claim 32 (currently amended): A terminal device as claimed in claim 31, wherein the Push-to-Talk over Cellular message is ~~one of a REFER message, a Floor taken message and a Talk burst.~~
